

ORANGE CLEANER

DIY Orange vinegar cleaner, great way to clean the grease and use some orange peels!

SERVINGS	CONTAINERS	TIME TO MAKE
A FEW SPRAYS	2 --- 48 oz JARS	10 MINUTES + 6 WEEKS

INGREDIENTS

- 5-10 orange peels
- 48 oz white vinegar

DIRECTIONS

1. With the leftover orange peels, place in a glass jar.
2. Add enough white vinegar to cover all of the orange peels.
3. Cover with a lid.
4. Place in a cool, dark spot and let sit for about six weeks or longer, depending on need.
5. Strain liquid and remove orange peels.
6. Then strain through a filter to remove any sediments. This can be done several times as any sediment can clog spray bottle.
7. Once done, you can fill a spray bottle* half way, add the rest with tap water or filtered water.
8. Store any leftover orange cleaner in a glass jar and place lid on top.
9. Enjoy!

TIPS

*Recommend using glass spray bottle

**First test any area to make sure this cleaner won't deteriorate the surface. Do not use on surfaces such as unsealed and sealed granite, marble, and the like.
